(54) Title: WETSUIT

(57) Abstract: The invention relates to the provision of a suit for use to be worn by a person when immersed in water or in contact with water and may be provided, for example, as a wetsuit construction or a dry suit construction. The suit includes an outer layer typically of a rubber foam construction and in accordance with the invention there is provided on the inner side of said layer, at least one portion of the suit, a layer of wool (8) or wool blended with other material. This inner wool (8) containing layer typically lies in contact with the wearer. In one embodiment the wool used is that obtained from Merino sheep which is found to be particularly well suited.
